| **Injection** | #3504, #3677, #3509, #3571 |

Some nozzles need an adapter or holder. Which one, for each nozzle, is on the gun's page (scan the code).

## Choose it if you

- Change glues often: swap the cartridge, no tank to drain, and set each glue's temperature from 50 to 210 °C.
- Want quick refills: a filled cartridge kept hot in a preheater goes straight in.
- Glue with standard hot melt or PUR, held within ±2 °C on a display.

## Where it works well

Plastics · Fabric & nonwovens

Good places to start, not the only ones. Tell us your job.
